PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience specializing in cross-platform mobile and web application development using Flutter, Dart, and React.js. Proven track record of architecting, building, and deploying 15+ production-grade iOS and Android applications across HealthTech, Fitness, Automotive, and Live Streaming domains. Experienced in end-to-end feature ownership, Clean Architecture, reactive state management, RESTful API integration, payments, and full release lifecycle management on App Store and Google Play.

TECHNICAL SKILLS

Mobile & Web	Flutter, Dart, React.js, Android, iOS
Architecture	Clean Architecture, MVVM, Layered Architecture, SOLID
State Management	GetX, RxDart, Provider
Networking & Backend	REST APIs, Dio, Firebase (Auth, Cloud Messaging), WebSockets, WebView
Payments	Stripe, RevenueCat
Maps & Location	Google Maps
Tools & IDEs	Git, GitHub, VS Code, Android Studio, Xcode, Google Play, App Store

PROFESSIONAL EXPERIENCE

Mobile Application Developer · **Softvence** — Mar 2025 – Present

- Developed and maintained production Flutter applications for iOS and Android using Clean Architecture, MVVM, and reactive state management (GetX / RxDart).
- Owned end-to-end feature development including UI, REST API integration, authentication, push notifications, maps, payments, and subscriptions.
- Integrated Firebase services, Stripe payments, and real-time features across HealthTech, Fitness, Automotive, and business applications.
- Managed full release lifecycle and deployment to Google Play and App Store; collaborated with design, backend, and QA teams.

Junior Flutter Developer (Intern) · **Cityscape International Ltd.** — Dec 2024 – Feb 2025

- Built Flutter applications with responsive UI and Provider state management based on design specifications.
- Optimized application performance and reduced bundle size through code and asset optimization.
- Participated in Agile ceremonies, testing, and code reviews.

SELECTED PROJECTS

NutriPrime *HealthTech marketplace connecting patients and certified nutritionists*

`Flutter · Dart · GetX · Firebase · Stripe · REST APIs`

- Developed complete mobile application including user roles, meal plans, recipes, appointments, progress tracking, and secure payments.
- Implemented authentication, Firebase notifications, WebView, API integration, and full deployment to Android & iOS.

BP Fitness *Fitness platform with guided workouts and premium subscriptions*

`Flutter · Dart · RevenueCat · Subscriptions · REST APIs`

- Built core fitness features including guided workouts, meal planning, and subscription management.
- Integrated payment/subscription workflows and delivered production app with full UI + backend ownership.

My CarMate *Automotive service booking application*

`Flutter · WebSockets · Google Maps`

- Developed real-time service booking features with live updates and location-based search using Google Maps.
- Owned UI, API integration, real-time communication, and deployment.

Theakktricks *Live-talent platform for scene recording and streaming*

`Flutter · WebRTC · Live Streaming`

- Implemented live streaming, scene recording, and social interaction features with WebRTC.
- Delivered full mobile application with UI, real-time integration, and deployment ownership.

EDUCATION

B.Sc. in Computer Science & Engineering — GPA: 3.05 | Aug 2019 – Oct 2024
Daffodil International University, Dhaka

Higher Secondary Certificate (HSC) — GPA: 4.85 | Jan 2017 – Apr 2018
Govt. Azizul Haque College, Bogura

Secondary School Certificate (SSC) — GPA: 5.00 | Jan 2015 – Apr 2016
BIAM Model School & College, Bogura

LANGUAGES

Bangla (Native) | English (Fluent) | Hindi (Conversational)
